

**Your specialist for refurbished equipment**

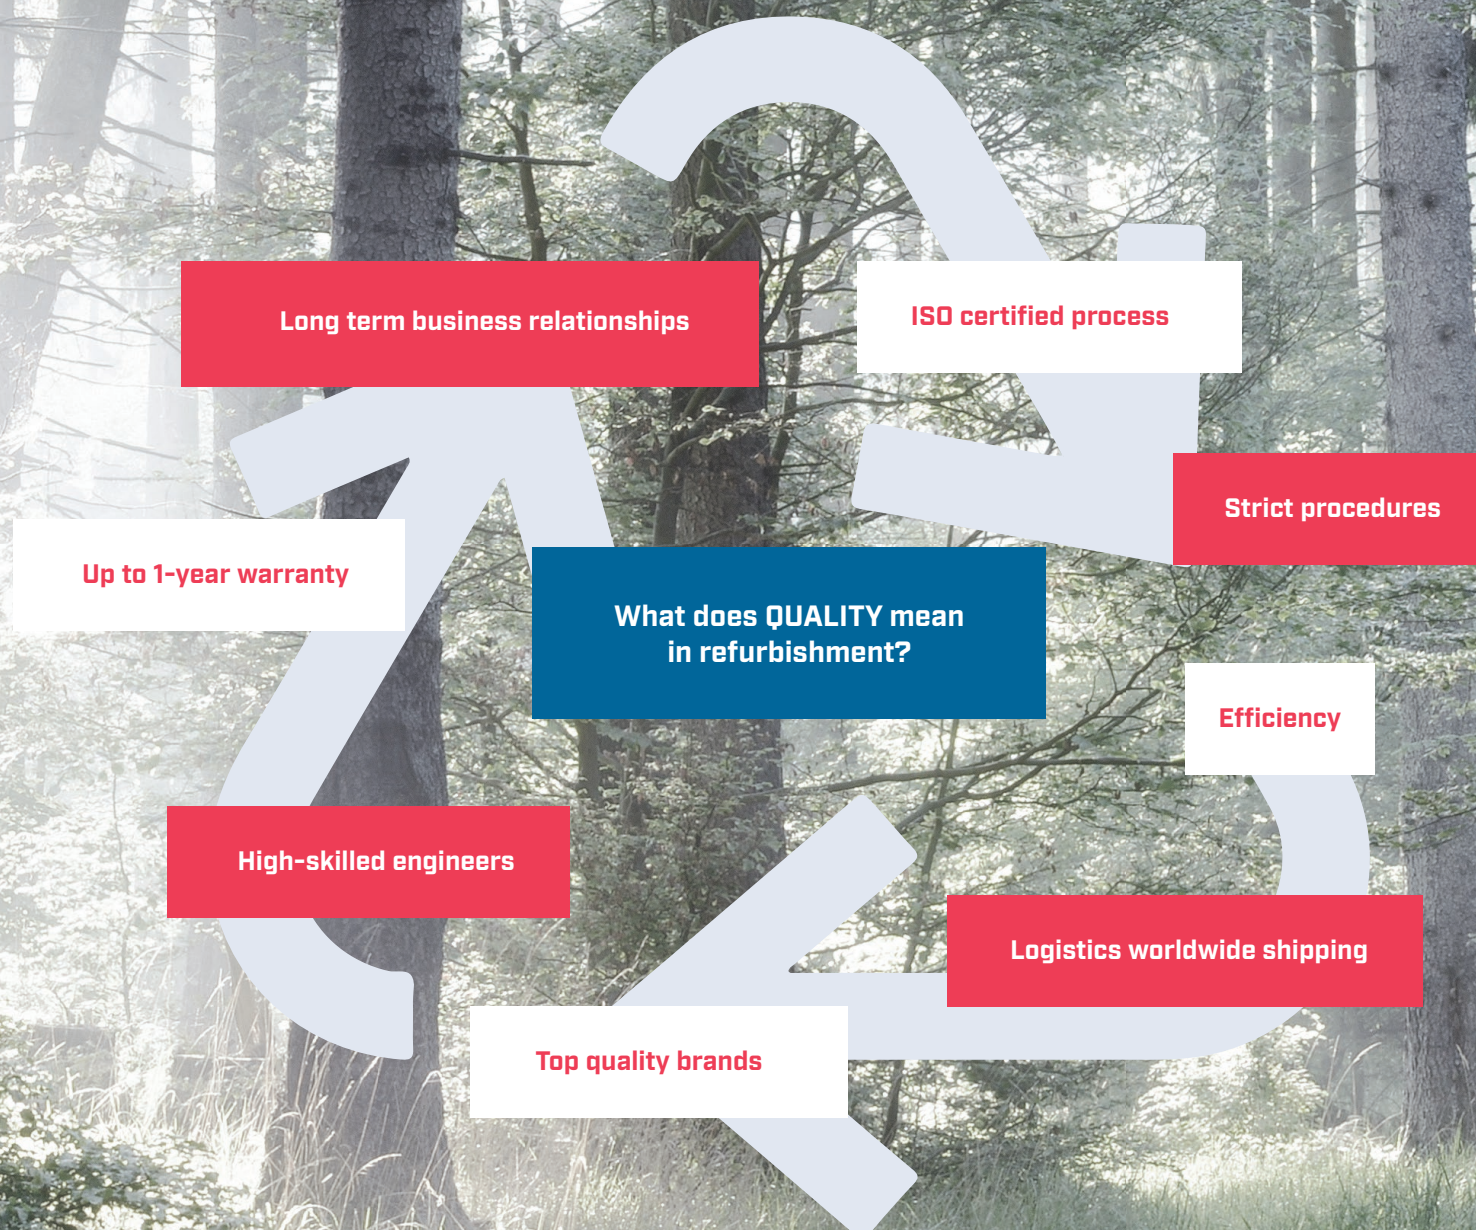

## Refurbishing

All Systems are refurbished and they are esthetically and mechanically like news units, as quality is the keyword in all aspects of our work.

The market of refurbished equipments demands confidence in the systems and the supplier, but it is also a market that gives access to first class equipment at a reasonable price.

We hope that we can gain your confidence and we are looking forward to answering your requirements.

## How does Fameco take part in circular economy?

Long before recycling became popular, Fameco started refurbishing used instruments in order to give them a second life. Today, saving our planet's resources has become critical.

Reusing equipment:

- + Reduces electronic waste
- + Lowers impact of overproduction
- + Gives access to high-quality equipment for everyone
- + Optimizes budget control

**Fameco offers a wide range of high quality refurbished systems**

## About us

Founded in the year 2000, in Strasbourg, France, Fameco is the European leader in high-end refurbishing of laboratory and medical equipment. From our new headquarter in Strasbourg and branches in Germany and Denmark, our 40 employees work to supply our customers high quality refurbished equipment. We always carry an inventory of over 2000 systems and their related parts.
