Worldwide

We have partners and distributors in more than 50 countries through-out the world covering all continents. We mainly work with local distributors who have extensive market knowledge and their own qualified technicians in order to guarantee a serious after-sales service.

Fameco regularly arranges technical training sessions in Strasbourg for distributors and end-users.

Quality control at every stage in our refurbishing process

How does Fameco take part in circular economy ?

Long before recycling became popular, Fameco started refurbishing used instruments in order to give them a second life. Today, saving our planet's resources has become critical.

Reusing equipment:

- + Reduces electronic waste
- + Lowers impact of overproduction
- + Gives access to high-quality equipment for everyone
- + Optimizes budget control

About us

Founded in the year 2000 in France, Fameco is the European leader in high-end refurbishing of laboratory and medical equipment. From our headquarter in France and branch in Denmark, our 65 employees work to supply our customers high quality refurbished equipment. We always carry an inventory of over 3000 systems and their related parts.
