## Worldwide

We have partners and distributors in more than 50 countries through-out the world covering all continents. We mainly work with local distributors who have extensive market knowledge and their own qualified technicians in order to guarantee a serious after-sales service.

Fameco regularly arranges technical training sessions in Strasbourg for distributors and end-users.

# Refurbishment & Process

## Selection

Our purchasing team collaborates with clinics and laboratories worldwide to find products suitable for trade-in.

## Collection

Our supplier management controls ensure us that we only collaborate with crating companies and freight forwarders that provide quality services.

## Inspection

All products are submitted to incoming quality control to identify potentially nonconforming parts. Each equipment keeps its unique identification number ensuring traceability throughout the entire flow.

## Quality assessment

Our team of qualified technicians conducts a quality assessment of all products to single out any products that do not meet the required quality standard.

## Refurbishment

Our ISO compliant refurbishment program gives our customers the opportunity to purchase quality equipment complying with current safety standards at affordable prices.

Each instrument is submitted to comprehensive electro-mechanical and operational performance validation and comes with **6 months warranty**.

## How does Fameco take part in circular economy ?

For 25 years, Fameco has been refurbishing used instruments to give them a second life and acts daily for the preservation of our environment.

### Reusing equipment

- + Reduces electronic waste
- + Gives access to high-quality equipment for everyone
- + Lowers impact of over-production
- + Optimizes budget control

## About us

Founded in the year 2000 in France, Fameco is the European leader in high-end refurbishing of laboratory and medical equipment. From our headquarters in France and branch in Denmark, our 65 employees work to supply our customers high quality refurbished equipment. We always carry an inventory of over 3000 systems and their related parts.
